

PRASANTA BADATYA

Full Stack Developer | Django • Angular • Celery • AWS • REST APIs
prasantabadatya651@gmail.com | +91 7077691500 | [LinkedIn](#) | Navi Mumbai, India

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience building production-grade web applications. Specialised in Django backend and Angular frontend. Led development of a large-scale multi-tenant dairy management platform and a cross-functional team of 6. Experienced in payment gateway integration, async task processing with Celery, and AWS deployment.

PROFESSIONAL EXPERIENCE

Software Development Engineer

Adhyay Infotech Private Limited

July 2023 – Present

MBP, Navi Mumbai

- Built and maintained the majority of the backend for the Mobile Dairy Management Platform — covering milk collection, quality-based invoicing, and loan management.
- Designed a multi-level approval workflow with maker/checker audit trails and full change history across any platform module.
- Set up **Celery** with **Redis** for background processing — enabling bulk invoice generation without blocking main request threads.
- Extended a unified report engine with 64 report types, chunked processing, and multi-format Excel export using **openpyxl** and **XlsxWriter**.
- Integrated **HDFC** SmartGateway with webhook handling across UAT and production environments.
- Set up **Sentry** error tracking and **Prometheus** metrics monitoring across 5 deployment environments.
- Built **Angular PWA** and web frontend — improving load performance by ~20% using lazy loading and modular architecture.
- Deployed an AI-powered chatbot on **AWS EC2** using **Gemini AI** for FAQ handling and internal technical support.
- Optimised **Django** ORM queries using `select_related` and `prefetch_related` — reducing load on high-traffic endpoints.
- Mentored 2 junior backend developers through code reviews and API design best practices.

KEY PROJECTS

Mobile Dairy Management Platform

July 2023 – Present

Stack: **Django, DRF, PostgreSQL, Angular, Celery, Redis, AWS EC2, Sentry, Prometheus**

- Built core backend for a multi-tenant dairy cooperative — milk collection, quality-based invoicing, loan management, and payment processing.
- Background bulk invoice generation with **Celery + Redis** — eliminated request timeouts at center level.
- Extended 64-report engine with chunked processing and Excel export covering passbooks, P&L, and bonus registers.
- Integrated **HDFC** SmartGateway with webhooks and environment switching (UAT + Production).
- Built full maker/checker approval system with audit trails across all platform modules.

AI-Powered Chatbot

Jan 2025 – Mar 2025

Stack: **Angular, Django, MySQL, Gemini AI, AWS EC2**

- Built intelligent chatbot using **Gemini AI** for FAQ handling and real-time internal support.
- Developed all REST APIs using **Django** REST Framework and deployed the full stack on **AWS EC2**.

Mobile Dairy Applications (PWA, iOS & Web)

July 2023 – Present

Stack: **Angular, Django, MySQL**

- Built and maintained Angular-based Web, PWA, and iOS applications for the Mobile Dairy Management Platform.
- Delivered multiple REST APIs supporting authentication, data sync, reporting, and payment workflows.
- Worked across the full stack — from database schema design to Angular UI — ensuring consistent experience across all platforms.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript

Backend: Django, Django REST Framework, REST API Design, Celery

Frontend: Angular, PWA, HTML5, CSS3, Bootstrap

Databases: PostgreSQL, MySQL, SQLite3

Async & Cache: Celery, Redis

Cloud & DevOps: AWS EC2, Sentry, Prometheus, Multi-environment deployment

Payments: HDFC SmartGateway (webhooks, UAT + Production)

AI & Reporting: Gemini AI, openpyxl, XlsxWriter, pandas

Soft Skills: Team Leadership, Mentoring, Code Review, Sprint Planning

EDUCATION

Master of Computer Application (MCA)

2019 – 2022

Khallikote Unitary University, Berhampur, Odisha
